# PLC-XU110/100

The smallest and brightest of 4,000 AL XGA projector in the world

#### AMAZING BRIGHTNESS LEVEL FOR AN ULTRAPORTABLE

The PLC-XU110/100 projects an outstanding brightness level of 4,000 ANSI Lumens, illuminating even well-lit conference rooms.

# SMART AUTO INPUT SEARCH AND AUTO VERTICAL KEYSTONE CORRECTION

Aimed to reduce setup time, the Auto Input Search function detects various input signals and automatically selects the correct mode to project images from their original sources. Another timesaving function called the Auto Vertical Keystone Correction (XU110 only) automatically compensates for keystone picture distortions during setup.

#### ANITTHEFT ALARM SECURITY FUNCTION

The vibration sensor of PLC-XU110/100 is able to detect the slightest position change of locked projectors to from being stolen. Any irregular movements will set off the antitheft alarm to alert the owner of suspicious behaviors.

#### TWO COMPUTER INPUTS (DVI-I AND D-SUB)

The PLC-XU110/100 have two computer input terminals—DVI-I input (XU110) and 2 D-sub input (XU100). Also, each has a D-sub monitor out terminal.

#### WIRELESS/WIRED LAN CAPABILITY

The PLC-XU110 is ready for wireless and wired LAN connection to give you greater projecting versatility.

- IEEE802.11b/g Wireless Function
- Automatic Connection Setting for Wireless
- Multi Control with Web Management
- Moderator Function
- Real-Time Transmission
- One-Shot Transmission
- Five-Unit Simultaneous Projection
- E-mail Alert
- WEP/LEAP Authentication

### HIGH-QUALITY UXGA PROJECTION COMPRESSED

The PLC-XU110/100 deliver UXGA signal compatibility with SANYO's Digital Realized Interpolation Technology (DRIT).

#### QUICK START AND POWER-OFF AND GO

No more waiting for the projector to cool down. Simply disconnect the power cord right after the presentation, without worrying about overheating.

### **USER-SPECIFIED START-UP SCREEN**

To create a more professional presentation, logo and image files may be captured for display during the projector's countdown start-up sequence.
